

Flavour

FLAVOUR FOR WHITENING GEL

White Beauty Professional FLAVOUR is the innovative flavoring solution designed to make whitening treatments a more pleasant experience.

Thanks to its formulation, White Beauty Professional FLAVOUR enhances whitening gels with a pleasant taste for the patient, eliminating the neutral flavor typical of whitening products.

Perfect for both professional in-office treatments and at-home whitening protocols, White Beauty Professional FLAVOUR turns patient comfort into a true ally for treatment consistency and effectiveness.

KEY FEATURES:

- Flavors without altering whitening performance.
- Ideal for long-lasting treatments, such as at-home whitening with customized trays or airless systems.

AVAILABLE IN TWO EXCLUSIVE FLAVORS:

- **FLAVOUR COCONUT:** Fresh, smooth, tropical
- **FLAVOUR MINT:** Pure, energizing, refreshing

HOW IT WORKS

Connect the FLAVOUR syringe to the Luer Lock connector.

Inject the flavour directly into the syringe containing the liquid (FLAVOUR must be used before preparing the whitening gel).

Proceed as usual with the mixing of the whitening gel and the powder, as required by the protocol.

You will obtain a flavored whitening gel, ready to use, with a pleasant taste that enhances the patient's experience.

White Beauty Professional FLAVOUR is the simple and safe solution to make whitening treatments more pleasant and to encourage patients to consistently follow the protocol.

The smile shines brighter, the experience becomes more enjoyable.
